## **Overview**

Choosing the correct hospitality environment is necessary. In India, in its NER – North eastern region, healthcare infrastructure here is mix, having both head-

tales of coins in form of government funded institute and private sector hospitals. Both plays crucial and significant role in there own ways. From Above 10 mentioned hospitals there are major government established institutes named as JORHAT MEDICAL COLLEGE, NAGOAN MEDICAL COLLEGE, AIIMS GUWAHATI AND NEIGHRIMS. These listed 4s stand outs as key public health institutions of north east. These hospitals provides affordable or free medical services and other government aided facilities can also be used there like AYUSHMAN BHARATI SCHEME can be used in government hospitals, National health mission, PMSSY are also branches of government aided schemes and facilities for patients. Rest institutes like SANJIVANI HOSPITAL, BARUA SURGICAL CENTER, GOLAGHAT NURSING HOME, TRINAYAN HOSPITAL,GNRC and NARAYAN SUPERSPECIALITY falls under private sectors. No Matter the hospital is private or government aided but together this represents a blend of Public responsibility and private efficiency.

### **Why to choose north east hospitals?**

As it is clearly known to all that the North eastern region of India is popularly known for its greenery and perfect environment the hospitals and natural environment of north east region combined together shows a perfect health care combination with the supportive ecosystem. The northeast side provides a perfect combination of medical care and natural healing environment making it much needed a precious for health. Whether it's a routine checkup or long term treatment patients here gets benefit not only from quality or top rated hospitals but also from the regions calm and healthy background. The regions clean atmosphere abundant greenery and peaceful surroundings helps to cure a patient from illness to early.

### **Conclusion**

In India, in its North eastern region – Assam, Aruncahal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Tripura, and Sikkim is also considered to be the greenlands, and we know how much prosporous greenery it to us and good for our health in this incredible biodiversity. The north eastern region is also known as for its welcoming hospitality too. The hospitality in north east is also the branches to its traditional values . As we know Hospitals are how much important to us and plays a central role in maintaining and improving public health. The Hospitals provides us with life saving treatment dealing with emergency issues, long term illness or newly caught. From birth to death hospital is one of the place where each and everyone of us have to visit atleast for hard times. Hospitals are essential for healthy society as it is a place of healing, prevention,learning and life saving support. While looking for hospitals safety is also a measure we probably think for, is it really safe? But the north east india is also known and stands out for its safety and cleanliness. Cleanliness which is often ignored in other places is a point of pride here. Furthermore, the hospitalibility environment here has also adapted well with time to modern technology with additional natures love. In conclusion it can be said that the north east region of india offers not just the beautiful eye soothing environment but also highly evolved

top rated hospitals, hospitals in every location from hospitals in Jorhat, hospitals in nagaon, hospitals in shilling, hospitals in assam, hospitals in Guwahati to hospitals in northeast. With the passing of time the infrastructure improves and awareness grows, and with time the promising development is also clearly visible in north east.
